Hey Jim just to keep you in the loop .

AG direct is not the only financing i have just the cheaper rate.

Got this from AG direct.. basically says that ..if we purchase Daws then BOTH rdt and Daws would have to do 50% AG. Together we are 37million in annual sales.

Means we have to do 18million in AG related .

I think you will be 14mm AG

And we are easily 5mm AG

We do a lot of Lumber , and Cranberries and DelMonte tomatoes.

Also Quaker Oates..Cotton

Hey Jim ...so I gotta write a Pro Forma for the bank for RDT and Daws .

I'm gonna right something from what I see discounting Fuel sur charge inflation.. but most of your growth seems to me has been related to the ability to have a piece of equipment ready to go..

Would you say that's correct or would you say you find a driver then a truck?

2022-03-22 15:04:14Sent

Btw has the fever gone down ?

2022-03-22 18:50:18Sent  
Yup weird

2022-03-24 11:17:05Sent  
hey Jim Ricky is putting together some numbers too for the bank.  
Jake is supposed to have questions from committee today.

2022-03-24 11:20:05Sent  
I sent some stuff but Ricky used to do charting when he traded and he may say fuel won't plateau ..in fact if you look at 2002 and again 2007  
And 2010..  
Its setting up to form a shelf

2022-03-24 11:21:59Sent  
So point is fuel will remain high for 3 or 4 years

2022-03-24 11:23:38Received  
When it does plateau it won't travel down be cause this price will be the normal

2022-03-24 11:24:33Sent  
Exactly

2022-03-24 11:28:05Sent  
And if you remember in the 2010  
Fuel stopped going up and Line Haul went up..  
Like its supposed to  
It happened again in the 2017 run ..but covid stalled it and that's why we shot up..

Fuel is so related to trucking

2022-03-25 11:56:44Sent  
Jimmy call me when you can we're trying to guess the future for the bank ..couple of items on here

2022-03-25 11:59:36Received

2022-03-25 12:06:24Sent  
Ok 1st thing  
On the Income statement  
UNDER " TAXES" are those payroll taxes due ..at any given i assume.

And UNDER "LEASE EXPENSE"  
what is that your leasing for 100k per year like ELDs maybe software

And Under "REPAIRS" all the years are about \$500k except 2020..  
It was 1million..is that a One Time.  
Repair workshop investment

2022-03-25 12:11:58Sent  
Also Jim..

I really Hope You don't mind.

We are gonna have Julie setup a Nebraska LLC..

2022-03-29 09:48:58Sent

Good morning Jim so i ..pushed Julie along .. i dont think she knew how to handle this transition.  
Mostly because we want to keep everything as fair to you as possible.

So i said ok start with this and change what ever you want ..

After closing everything should remain the same .. i see that your salary for Daws inc was 80k per year .. i told her to leave that for 2 to 3 years..which is what you mentioned.

Then stay on as an advisor for 20k per year until you fully paid .

Or as long as you like ..

You may want to still keep health insurance with the company.

Lets start with that you can change what ever you want..

I just want to make sure you're gonna hang with me if we hit a hiccup.

If you're good with that give Julie your blessing so Jake can present to committee

2022-03-29 09:51:11Received

I'm good with that

Only thing pending is the Contract ..and a rental Agreement.

But i told Julie that can be done after the contract is done .

I dont want to overwhelm her.

Morning Jim ...a couple of things

Ricky put 10k into Slims truck we are gonna use it as a spare.. but who does Thelma call to get a copy of the title..

2022-07-05 08:57:03Sent

2nd part .. I spoke to head of distribution from Trane AC industrial..

MERCER TRANSPORTATION has a Flat drop pool there they move about 20 loads a month to their distribution facilities 500miles out different location one is in Nebraska .

But the rate is 350 per mile all in..  
You dont have to set up a drop pool but its faster

2022-07-05 08:57:29Sent  
Can we make money at \$3.50 though?

Hey Jim I spoke to Larry ..and he will talk to Mark again..  
The issue with the collateral is confusing.

And Mark said he'll do it either way.  
But if they wont release your collateral why do they need 2 Collaterals. ..

if they wont give us another Vote or issue us another share why do we have to pay another 10k.

Equity and Dividends are different they should release that to you.

And we should buy your collateral when you're allowed to pull yours out.

Or if they insist then Ricky should get a vote since he owns JDT llc.

I know its confusing and I know they are being flexible but.. I dont want them to double up.

Let them work it out and let me know.

2022-11-30 11:01:10Sent

Hey Jim we can talk about this but 3 big problems  
1) no consistency en the FSC..some guys get as much as .90cts..some as low as .37cts.. but the majority are in the .60s  
2)some guys are 90%  
3) we are average 650k miles on trailers every 4 weeks.. or 162,000 per week on half the trailers.

I dont think 150k per week is enough but it's a start.  
I notice most O/ops are putting. 10 per mile for reserves maintenance on their trucks

4) we are out of money as of today we owe \$150k in escrow. 5% hold back  
And 50k in deposits.

And 193k in money we collected for truck payments just this year form our trucks is gone plus the 4 payments to you we missed.

2023-09-25 11:47:14Sent  
This is what FSC should be

2023-09-25 11:48:03Sent  
This is what we deducted in payments this year for our trucks gone

Send the wording that we would use and send to the o/o's today. We will send it out tomorrow

2023-10-02 08:22:47Sent  
Ricky I'm getting ready to head to the airport.

But something like .

As you all are aware the entire trucking industry is facing constant pressure to stay competitive. The flatbed industry had been able to stay away from the effects of the spot market . But our customers having to cut cost to stay competitive and now we have to do the same.

2023-10-02 08:31:56Sent

After that ..

I looked at all the options

I would write .

Most of our customers have taken away the FSC or are mixing it in the rate.

We have done everything to keep Daws drivers with the best fuel purchasing power out there . As an example in the month September the Avg Midwest fuel cost was \$4.50 Daws drivers averaged \$4.28 (this is a fact from a report in the system )

And what ever way you want to keep it ..I have to go ..

Ricky keep it simple

2023-10-02 08:34:31Sent

But we actually stopped looking at reports .. we kept coming with same thing Daws is down 3.5% to break even

2023-10-02 08:38:36Received

This isn't about fuel surcharges it's about not carrying enough to pay the bills

2023-10-02 08:43:22Sent

Ricky should add.

Equipment cost has doubled tires breaks airbags.. and we have been paying for 100%

Yes you need to get 3%

On equipment

But stop paying fsc when they don't pay you.

All your doing is reducing the bill

2023-10-02 08:44:40Sent

There's other things call you when i check in

2023-10-02 08:46:13Sent

We both lost \$700k in 14 months.. that's all we have to keep in mind

2023-10-02 08:49:31Sent

BTW ..receivables are at \$1,550,000 as of Friday highest they have ever been ..it will help a little but most of it gets paid out.

2023-10-03 10:05:45Sent

Hey Jim let me know what your hearing.. probably gonna get worse when they get their check

2023-10-04 12:47:57Sent

Hey Jim still in meetings

But looks like we should be getting a big check soon.. there's a 70k deposit today.

Hopefully cash will catch up here in the next couple of days

Gonna send Ben our Aging report and tell him to wait for our September numbers..

FYI..recieved \$320k in cash this week so far.

We're billing avg \$450k per week.. it's happening with us too.

Cash is slowing

2023-10-06 16:16:37Sent

I got Ben to work on the Line of Credit for \$700k

In case we hit a snag ::

2023-10-09 16:47:49Sent

These numbers are early but I should be close.

September made back some of the loss from August.

But we are still short \$350k for debt.

Better than last month we were short \$435.

We need every once of that 4% from owner operators.. it will recoup \$52 per month .

In 3 months we will still be short but .. (\$200k)

But its better than being short \$500k.

I think i can explain that to the bank.. a good performance by company trucks would help. since they have been paying for the heavy expenses.

Tony still has a bit to go.

But I have \$500k in profit

Last month was \$325k
